

## ✓ HERO Section Generator (Website-Ready)

---

Create a high-converting hero section copy for a business. Follow this exact structure and style. The tone must be premium, trustworthy, and modern. Do NOT change the structure.

**Tone:** Professional yet simple. Avoid words that sound too salesy or AI-generated like “empower”, “unlock”, “next-gen”, etc. Keep the language clear and natural — something general users can easily understand.

### Structure:

- ① Small Authority Badge
  - Medium length
  - Not too short, not too long
  - Create 2–3 variations with different wording
  - Example style: ‘Top Choice Clinic in Vastral’, ‘Trusted by Thousands’, etc.
  
- ② Main Heading
  - Strong, aspirational, and high-converting
  - Similar length and impact to:
    - ‘Reveal the Best Version of Yourself with Expert Care’
    - ‘Your Transformation Starts with the Right Experts’
  
- ③ Subheading / Description
  - Same length as examples
  - Professional, benefits-focused
  - Must lightly mention the business’s services
  - Example style:
    - ‘At Krishna Clinic, we combine advanced care with modern technology to deliver visible, lasting results.’

### Inputs Required:

Business Name: [Insert]  
Location: [Insert]  
Years of Experience: [Insert]  
Happy Clients: [Insert]  
Services: [List main services]

Final output should sound like it’s written by a real person, be SEO-friendly, grammatically correct, and fit naturally on a business website.

## ✓ Features Section Generator (Website-Ready)

---

Generate 4 feature points for a website based on the business type I provide.

The features must directly align with the business industry, services, audience, and customer needs.

Follow these rules strictly:

**Tone:** Professional yet simple. Avoid words that sound too salesy or AI-generated like “empower”, “unlock”, “next-gen”, etc. Keep the language clear and natural — something general users can easily understand.

### Structure:

#### → Heading Requirements

- Each heading must be 2–3 words only
- All headings must be similar in length and tone
- Style examples:
- ‘Expert Specialists’, ‘Personalized Care’, ‘Modern Techniques’, ‘Luxury Comfort’

#### → Description Requirements

- Each description must be 2–3 lines
- All descriptions must be equal in length
- Tone must be professional, human-written, SEO-friendly, and grammatically correct
- Avoid repetitive words or ideas
- Focus on benefits, trust, expertise, and customer value
- Wording must adapt to the business I mention (not always skin clinic)

### Output Format:

Heading

Short description (2–3 lines)

(Repeat for all 4 features only)

Business Type: [Insert business name or industry here]

Now generate the 4 features.

Final output should sound like it’s written by a real person, be SEO-friendly, grammatically correct, and fit naturally on a business website.

## ✓ ABOUT US Section Generator (Website-Ready)

---

Write a 170-word "About Us" section for a business website.

**Tone:** Professional yet simple. Avoid words that sound too salesy or AI-generated like “empower”, “unlock”, “next-gen”, etc. Keep the language clear and natural — something general users can easily understand.

**Structure:**

- 4 small paragraphs
- Start with “Welcome to [Business Name]” or similar
- Include location, years of experience, and number of happy clients
- Clearly list the main 3–4 services
- Mention timely delivery, client satisfaction, proper and quality work (not cheap work)
- Highlight local presence and trust

**Inputs Required:**

Business Name: [Insert]

Location: [Insert]

Years of Experience: [Insert]

Happy Clients: [Insert]

Services: [List main services]

Final output should sound like it's written by a real person, be SEO-friendly, grammatically correct, and fit naturally on a business website.

## ✓ Service/Product Section Generator (Website-Ready)

---

Write website service section content based on the details below.

**Step 1:** From the raw input list, create 3, 6, or 9 main service titles.

- ▶ All titles must be 3–4 words long and follow a consistent format.

**Step 2:** For each service, generate

**[Service Title – uniform style]**

**Intro (25–30 words):**

Simple explanation of what the service is, who needs it, or when it's used. Avoid jargon.

**Bullet Points (4–5 points, 12–15 words each):**

- ▶ Use real, practical features, benefits, or what's included
- ▶ Avoid fluff, buzzwords, or vague lines

**CTA (10–15 words):**

**A clear, natural call to action like “Book now”, “WhatsApp us”, or “Visit today”.**

✍️ Keep all service cards the same length and structure.

🎯 Tone: Professional, simple, and user-friendly.

🚫 Avoid AI-ish phrases like “unlock growth” or “transform your experience.”

**Inputs:**

- Business Name: [Insert]
- Location: [Insert]
- Raw Product/Service List: [Insert]

## ✓ Testimonial Section Generator (Website-Ready)

---

Write 6 realistic and professional customer testimonials (25–30 words each) for a business.

### Instructions:

Each testimonial must focus on a **different service/product** offered

Mention real qualities: **quality work, timely delivery, support, clear communication, satisfaction**

Use **simple, natural English** — no buzzwords or robotic phrases

Vary tone/structure so all 6 don't feel repetitive

End each with a strong phrase like:

“Highly recommended”

“Very satisfied with the service”

“Great experience overall”

“Would definitely choose them again”

### Inputs:

Business Name: [Insert Name]

Location: [Insert City]

Services/Products: [Insert list]

## ✓ FAQ's Section Generator (Website-Ready)

---

Generate 5–6 FAQs for the business I provide.

Follow these rules strictly:

### FAQ Requirements:

- **Questions must be 12–15 words only**
- **Answers must be 20–25 words only**
- FAQs should be **SEO-friendly, human-written, and error-free**
  
- Cover the most common topics:
  - Service-based
  - Timing/appointment-based
  - Why choose us
  - Pricing/quality-based
  - Process/experience-based
  
- All FAQs must be relevant to the industry I mention
- No repetitive wording or duplicate concepts
- Keep tone professional, trustworthy, and simple

### Output Format

Q: [Question 12–15 words]

A: [Answer 20–25 words]

(Repeat for 5–6 FAQs)
